Custom Home

\$335,000

5 Bedrooms, 5 Bath
2,851 Sq Ft, 5.86 Acres

Quality custom built home rests in the highly sought after Lago Vistas community of Colorado City, where homes rarely come available on the market!! Five bedrooms, three on the main level and two in the basement, along with three baths AND upstairs living and downstairs family or home theater make this the ideal family home. Open concept main floor living, with kitchen or formal dining, and gorgeous hardwood throughout. Additional room downstairs provides for an office or a much larger bedroom, while storage space is aplenty. Two no-maintenance trex decks allow for LARGE VIEWS of Table Top Mountain, Greenhorn Mountain, Spanish Peaks, and Pike's Peak. From the back deck, views of the sunrise over the plains are stunning.
